ATTACHMENT : Secret
COMPONENT PERFORMING
ASSESSMENT : OP/PMCD
NAME OF ASSESSOR : STATINTL
SUMMARY OF DAMAGE : C/PMCD
HSC-Possible compromise
DETAILS OF DAMAGE : See Attached
ACTION TAKEN OR PLANNED : See Attached

DETAILS OF DAMAGE: This document identifies the names of PMCD Officers and the names of employees (primarily classification personnel) of other Federal Agencies. As indicated, the purpose of such contacts, as part of the normal job evaluation process, is to exchange information of a general nature concerning a variety of occupational areas and corresponding grade levels. In making these comparisons, the PMCD Officers have released no information relating to specific Agency mission, functions, activities or position detail considered to be of a compromising nature. However, even though such controls are a normal part of job classification activity throughout Government, it is possible that this could be portrayed as an example of CIA efforts to collect data on other U.S. Government Agencies. While all Agency personnel identified on the document were "open" Agency employees at the time of the report, future assignments may require that their identities as employees of CIA be protected.

ACTION TAKEN OR PLANNED: No action is planned other than to continue our current policy of constraint when contacting classification personnel outside this Agency.
